# Strategies For Successful Writing (11th Edition)

## Synopsis

For first-year courses in Composition/Rhetoric. A four-in-one guide for writing in the modes—a rhetoric, research guide, reader, and handbook. At every step of the writing process, *Strategies for Successful Writing* supports students as they learn to compose in the rhetorical modes. Over 100 short examples demonstrate writing concepts and strategies, so that they can recognize them more easily in the longer reading selections and apply them in their own compositions. Instruction is kept brief and to the point, so that students spend more time writing and less time reading about writing. Perfect for those seeking support for participating in academic discourse for the first time, this four-in-one guide may be the only text students will need for the composition course. Also available with MyWritingLab. MyWritingLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. In addition to the full eText, all writing activities included in the text are available within MyWritingLab, making managing and grading lower-stakes work easier for instructors.

**Note:** You are purchasing a standalone product; MyWritingLab does not come packaged with this content. Students, if interested in purchasing this title with MyWritingLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. ## Customer Reviews

I am writing this review strictly based on how fast it came, and the condition, I bought this book for school, which was required, so I can't really say on a personal level if I like it. I guess if college teachers use it, it's good enough. I bought the new one, because it wasn't much more than the used one. If I would have bought it from my college's book store, I would have paid at least 100 for it, as opposed to 50. I got two day shipping, I put the order in on a Thursday, and came the following Monday. Not really two day shipping, but it came when I was told. I gave it a five star because I am so happy for the price, because college books are pricey, and I get all my books off for school, I end up spending half as much, if not less. It came undamaged.

Good for students learning patterns of composition, reviewing grammar rules, proper sentence construction and clichés. Excellent compositions by established writers

Also a great book to have. A good resource item. Easy to read and understand. This was a required text for my writing class and I found it to be very helpful.

the book was very useful. even after the course is over, i know i'll use it from time to time for a little bit of reference

Is really helpful, and I do a lot of work from it. I recommend this book to those who are starting with English 11.

This text flows smoothly

Perfect
