Customer Reviews

Great book. Easy to understand for the most part, also had original works and writings from the major theorists for sociology. Definitely recommend this book to all sociology students. Fast shipping and price was good.

I needed to get this text for class and it was delivered quicker than expected and was in great condition! I would recommend this product and user again

This book was in great condition, arrived in no time, and overall it was a very dry and tough book to read. I would not recommend this crap book to anyone.
