Customer Reviews

I love this Almanac and enjoy the layout. It is very useful, but the magic is basic and is not designed for those who may want a higher level of spell, or perhaps are looking for more detailed information about magic. This is beautifully written and is perfect for the casually or beginner.

My all time favorite everyday book. This is a must have for me and my learnings. I know somethings are far fetched if you are truly studying but it's fun and useful no matter how you use it. I was so busy in everyday life for while so instead of following the day by days I just went off the suggested smells that day to help clear my head.

I get one of these every christmas! I get one for each of my three daughters as well! It helps you learn about the moons phases as well as the planetary alignment and traditions in different cultures. Fun for everyday!

I actually haven't gotten this before, but I find it a nice way to start the day or unwind at night. They are more like meditations than spells, and there is a guide that lists them by topic in the front of the book if you are looking for a specific topic to try.

This book is so creative and amazing! I can't wait until next year so I can start using it. Highly recommend!

I absolutely love this book. It gives detailed prayers for asking anything

I have been collecting these over the years and was happy to see the newest one available for next year.

Sharing the knowledge in this book with my 10 year old daughter. She and I are loving it.
