Rabbit Hole: A Satanic Ritual Abuse Survivor's Story

Synopsis

From the nationwide satanic panic in the 1980s to local political cover-ups, shocking kidnappings, unsolved child murders, and scandalous pedophile rings, this book takes you behind the deceptive headlines and, finally, reveals what was going on in Omaha when all hell broke loose. Rich and well-connected members of Omaha's elite carried out unspeakable acts of abuse and even murder on innocent children. David Shurter was one of those sexually abused survivors forever scarred by the horrible rites performed on him by his own parents and other followers of Satan. It wasn't until he entered psychotherapy in midlife that long ignored childhood memories came to light, and when he discovered his gruesome nightmares were indeed real. This book, finally, is an expose of the surprising participants and unbelievable horrors involving murder, drugs, lavish parties, pedophiles, suspected government conspiracies, and the Omaha gay scene that cast a dark cloud of suspicion over an unsuspecting city. David Shurter takes you down the rabbit hole.

David Shurter must be one of those people who is blessed beyond belief. I say this, knowing that he is a survivor of unspeakable torture and brainwashing, who amazingly made it through the nightmare of his childhood and pre-adulthood. Rabbit Hole, his personal account of life in Omaha, NE in the 70's, 80's, and 90's, is chilling and totally believable. His writing is compelling, gripping my attention from the first page of the introduction. David recounts a life in which he was groomed from birth to be the "Antichrist" -- something he spurned early on. The excruciating torture and mind control used on him by his father and step-mother (who were Satanists) were not enough to

separate him from a spiritual connection to God that would take the form Shamanism, sustaining him, even while he was homeless, penniless, and trapped in the gay life of the underbelly of Omaha's city life. With clear language, sometimes graphic language, David reveals the sordid details of child-trafficking, money laundering, and his forced participation in torture and murder of other human beings. His Satanic training came under the tutelage of Michael Aquino, founder of the Temple of Set, along with the brutal, narcissistic treatment by his "parents." By speaking out, David has shown great courage and determination to get justice for the families of the many children who were kidnapped by his father and his associates, and used in Satanic rituals. By learning the lessons of forgiveness, David surprises the reader when he tells of forgiving his birth mother for abandoning him in preference to addictions, and when he forgives his father in his later years.

David Shurter's book, *Rabbit Hole*, rings very true to me and to many people I know who've lived in Omaha. There are many publications that validate the problems of illegal activities conducted by satanic cults, in fact, here is a list of 107 of these publications: [...]. The best from that list is available on .com: *Ritual Abuse in the Twenty-First Century*, by Randy Noblitt, 2008. There are also many sources that validate the existence of CIA Mind control experiments such as the ones David Shurter describes, including a book available on .com: *The CIA Doctors: Human Rights Violations by American Psychiatrists* by Colin Ross, 2006. It doesn't take a leap of faith to make the obvious conclusion that there are hundreds if not thousands of survivors like David Shurter, most of whom would be far too terrified to share their stories. Some have criticized the fact that big names are dropped in the book, i.e. that some of the abusers were friends with George H.W. Bush and other high ranking government officials. David is not saying that George H.W. Bush had anything at all to do with his abuse, only that the abusers had greater freedom to pursue their illegal activities due to those friends in high places who would unwittingly protect these abusers. And the fact that a known satanist was close friends with CIA officials does not mean that the CIA approved of the satanic abuse, but it does mean that there is already some proven overlap between these two organizations. Why is it difficult to believe that there were others who overlapped? We all know that most child pornographers and pimps are never caught, so why should it be surprising that some of them would have also have ties to other professions?
