Redeem This (Tenderness And Terror: Clean Romantic Suspense Series Book 2)
Some men are beyond redemption. Alex is one of them. After Alex Chakhota was blackmailed and manipulated into becoming a hit man to protect his sister, serving time as the FBI's assassin doesn't do much to ease his conscience. His next assignment brings him face to face with Brittany, a beautiful woman that believes he's more than the killer he's been made into. The road to redemption is long for someone with a blackened soul, and with lives hanging in the balance, Alex has a short deadline. Detective Scott Bentley's days of law enforcement are behind him. When he's asked to host agents at his secluded ranch for an FBI sting operation, Scott cannot refuse. Ivy McMahon shows up with the team, and Scott gets more than he signed up for. Not only can she hack into the any computer system, she's found a way into Scott's heart. The trouble is that she's in protective custody and when the job ends, she'll disappear. Is redemption possible for those whose lives are scarred by the past? With danger crowding close, not even love may have a chance to redeem before it's too late.

Don't miss this exciting sequel to Blog This by #1 Bestselling Inspirational author, Cami Checketts "This book was so good I couldn't put it down. I was fun to see so many characters from the first book, Blog This. I suggest you read that one first....by the end of the first book you start to like Alex. Yet, you want to hate him for all he has done. This book is really his redemption. You fall in love with all the characters even Alex. It is fast paced excitement the whole way through and such a great story! I was glad to see both Scott and Alex get the chance for love that they didn't get in the first one. Cami is one of my favorite Authors and once again she writes a really great book!" Julia Lance, Reviewer, Book Reviewing Rocks "I cannot tell you how excited I was to read this book! Cami Checketts is one of my favorite authors. She knows how to write romantic suspense and I am always so drawn in by her books. I usually steam roll right through them because I cannot put them down. Redeem This grabbed me from the very beginning. The suspense is there from the very first chapter. There is a fantastic balance of suspense and character/relationship building. I could not put this book down! Alex. Oy. Here's a guy that will make your heart squeeze. Honest. He is seeking redemption. Forgiveness. Acceptance. He's strong, handsome and yes, a bit dangerous. I'm telling you, heart SQUEEZE. One of the other things I love about not only this book but all of Cami's books is that they are clean. I cannot tell you how much I appreciate the no swearing/no sexual content. Redeem This is the sequel to Blog This. If you haven't read Blog This yet, you really need to! Not only is it a fantastic book, it must be read before reading Redeem This." Aimee, Reviewer - Getting Your Read On
I enjoyed the first book Blog This, but I loved this book. I will admit there were some parts that I did not see how someone could be that open minded or open-hearted, but that is also what led me to just appreciating this book and its TWO love stories even more! This book took two of my favorite characters from the last book and shared their own stories of finding true happiness. Each story was fully developed and could stand alone, but together it brought an even richer appreciation of the changes and trust that the individuals had to develop to allow their love to happen. When I finished this book I was like I think these may be some of my favorite characters and story lines in a while. Due to how much I loved this book I waited to write my review because I wanted to ensure I actually did enjoy it that much. Again, it is rare that I like, let alone love, a character who was the bad guy or "villain" in the story. I think the closest I have come to liking the "bad guy" would be Voight on Chicago PD (another story another post I know!!). It is also rare that I am torn on who my favorite character is in a story, but again here I face that quandary. I think the connection I have with both of those rarities for me is that I do think this story, along with Blog This, could be a TV show or movie. It would have romance, friendship, drama (hellloooo living with the man who had a hand in killing
your fiance...I don't think so!), action, and more..I think that screams that people would enjoy seeing this on the screen.I talked about it being a TV option, in my opinion, in the first books post so I won’t go on, but I do want to share one more thing that I loved about this story.
