Easy and fun reference book to learn phrases. However, the full speed, inflections and nuances of truly speaking Spanish, cannot be fully attained with this guide alone. Worth the money and time to study what this book offers.

The book make it so easy to understand and speak Spanish. Where was this book years ago? I even have the accent down packed. I highly recommend this book.

A latino, if gracious, can understand. It is a fun way to communicate with those around that are non-English speaking.
This is more a fun book than a true learn Spanish but my kids really benefited from the phonetic spelling.

Given as a gift. I assume they enjoyed it.
