Customer Reviews

Well written novel and an appropriate subject. I found the read very difficult due to my upbringing, but several in my book club really enjoyed. So very hard for me to read with the self absorbed Mother.
I couldn't in good conscience recommend this book, in fact I am not sure how it even arrived on my kindle. Trying to be fair I did try and read it. I wish I could have made sense of it. The author writes in first person then third person and it gets very tedious. I probably won't follow this author.

I mistakenly purchased the "Debrief" version, thus am not able to read the entire book as it is meant to be read. My mistake and I will be more careful next time.

This book provides great conversations for book clubs! Lots of conversation starters and also good question to ask to keep the talking going!

got this by mistake. it's not the novel - it's the review of the book. oops

I also thought I was ordering the book. Sorry to have wasted my money,

Didn't realize this was a summary of the book.
