# Minimally Invasive Gynecologic Surgery: Evidence-Based Laparoscopic, Hysteroscopic And Robotic Surgeries

## Synopsis

Minimally Invasive Gynecologic Surgery provides a complete, practical and timely review of the minimally invasive surgical techniques used to treat gynaecologic diseases and conditions. Recent advances in technology and instrumentation, particularly the use of robot-assisted surgery, mean that minimally invasive approaches have become increasingly established as alternatives to traditional open surgeries. This book describes the full range of minimally invasive procedures in current gynaecologic practice, with discussion of the indications and contraindications and a summary of available evidence. The book opens with a section describing instrumentation, electrosurgery, how to avoid and manage complications and single port surgery. Subsequent sections cover procedures for benign and malignant conditions and relevant robotically assisted surgeries. \* Highly structured chapters provide practical guidance to key steps of each procedure, alternative management options; contraindications and available evidence \* Stellar contributors from leading centers in the USA, Brazil, Chile, Canada, France, Italy and Belgium ensure coverage reflects global best practice

## Book Information

Hardcover: 270 pages

Publisher: JP MEDICAL PUBLISHERS; 1 edition (March 16, 2016)

Language: English

ISBN-10: 1909836095

ISBN-13: 978-1909836099

Product Dimensions: 0.8 x 8.5 x 10.5 inches

Shipping Weight: 2.8 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 starsÂ  See all reviewsÂ  (1 customer review)

Best Sellers Rank: #1,728,221 in Books (See Top 100 in Books) #43 inÂ  Books > Medical Books > Medicine > Surgery > Laparoscopic & Robotic #721 inÂ  Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Obstetrics & Gynecology #1206 inÂ  Books > Medical Books > Medicine > Internal Medicine > Obstetrics & Gynecology

## Customer Reviews

Excellent textbook written by leaders in the field. Lots of practical information.
