Practical and right to the point!!
Great book. Joe is saving lives peacefully and legally. We need more people that will fight for the protection of the unborn and their mothers under the law and the United States constitution. God bless.

This is a very disturbing book, in more ways than one. The author has spent a great deal of time, energy, and effort trying to come up with twisted ways of closing down abortion clinics and stopping abortion altogether, without acknowledging that the only way to decrease or stop abortions is to stop unwanted pregnancies. Closing an abortion clinic won't stop abortions. Finding 100% effective and accessible methods of birth control might, just as establishing totally acceptable social and financial supports for women who are unexpectedly pregnant might. The author, and the pro-life people who support the kind of manipulative and useless methods of 'stopping' abortion that are outlined in this book, ought to focus their energies on supporting the women who have carried their unwanted pregnancies to term. They, along with all other pro-lifers, should focus on providing homes for the thousands of children up for adoption, lingering in foster care. They will never stop abortion with these techniques. This book is very twisted and disturbing.
